[Rhythmbox] Fails to play wav files

2015-11-19 07:32 AM - totalchaos

Status: not-a-bug	% Done: 0%
Priority: bug	
Assignee:	
Category:	
Description Although Rhythmbox does not associate wav files by default, for some reason, until recently it was able to play them, without any issues. But not anymore. Now it only see the wav tracks, find and add them in its music library can not play them at all (eventually even freezes or shutdowns incorrectly aka the rhythmbox process does not end)

Probably should have address that to Arch's bugs...!

#2 - 2015-11-20 03:57 AM - Anonymous

- Status changed from open to not-a-bug

rhythmbox comes from Arch, then i suggest you report it to Arch's bugs
