Description > Making package: icedove 1:38.4.0.deb1-2 (Tue Dec 15 22:53:22 UTC 2015) > Checking runtime dependencies... > Checking buildtime dependencies... > Missing dependencies: -> autoconf2.13 ==> ERROR: Could not resolve all dependencies.	

History

#1 - 2015-12-16 05:20 PM - isacdaavid

- Status changed from open to not-a-bug

Autoconf 2.13 is available in the repos too. To automatically resolve dependencies in makepkg use the -s flag.
