

Servers - Bug #912

<https://labs.parabola.nu/> still uses ca-cert.

2016-01-09 12:00 AM - GNUtoo

Status: fixed	% Done: 100%
Priority: bug

Description ca-cert is not in some browsers, like the tor-browser. Someone suggested on IRC to use letsencrypt instead, so I bugreport because that person didn't want to register. Denis.
