<b>Description</b> GNU Shepherd (previously known as dmd) is the init system used by the Hurd and GuixSD. It is an alternative to systemd, and would be interesting to have on Parabola. <a href="https://www.gnu.org/software/shepherd/">https://www.gnu.org/software/shepherd/</a>	

#### History

##### #1 - 2016-02-21 06:19 PM - Anonymous

- Subject changed from Add GNU Shepherd to [shepherd] add package for PCR

##### #2 - 2017-11-19 07:08 PM - korobkov

There is already a PKGBUILD in the AUR. May it be imported?

##### #3 - 2017-11-19 07:23 PM - Megver83

- Assignee set to Megver83

- Status changed from open to in progress

Normally the AUR PKGBUILDs are crappy, but I'll look forward this, since I'm adding more init systems to [pcr]
