

Branding - Bug #981

Package and rebrand grub2-theme-antergos

2016-04-11 08:57 PM - pizzaiolo

Status: open	% Done: 0%
Priority: wish	
Assignee:	
Category:	
Description Antergos by default uses this custom grub2 theme, which should be rebranded. This is particularly useful for users who migrate from Antergos to Parabola, making the transition seamless. The codebase is at: https://github.com/Antergos/grub2-theme-antergos
