<b>Category:</b>	
<b>Description</b>	
There's an issue with package python-h5py:	
<pre>\$ python -c "import h5py" Traceback (most recent call last):   File "&lt;string&gt;", line 1, in &lt;module&gt;   File "/usr/lib/python3.5/site-packages/h5py/__init__.py", line 24, in &lt;module&gt;     from . import _errors ImportError: libhdf5.so.100: cannot open shared object file: No such file or directory</pre>	
I have the following lib file available:	
<pre>\$ locate libhdf5.so /usr/lib/libhdf5.so /usr/lib/libhdf5.so.10 /usr/lib/libhdf5.so.10.0.1</pre>	
Probably a rebuild needed?	

#### History

##### #1 - 2016-05-04 12:09 PM - jluttine

Recent upgrade of hdf5 package fixed this issues. Can be closed.

##### #2 - 2016-05-04 01:10 PM - ovruni

- Status changed from open to fixed
